

# Rodeo Drive Roundabout Project—2020

Bolingbrook, Illinois

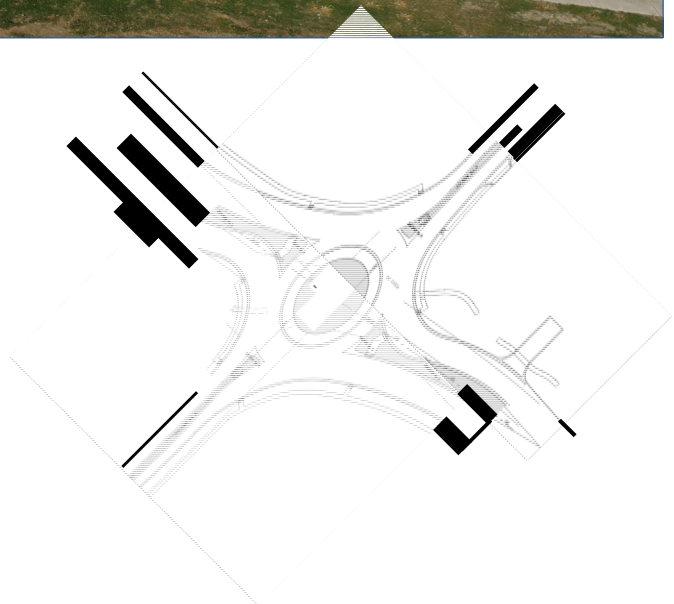

Rempe-Sharpe prepared Phase 1 and Phase 2 documents for the construction of the Rodeo Drive Roundabout. The Roundabout is composed of .26 miles of primarily median-divided roadway with bike lanes on both sides.

The new Rodeo Drive alignment included excavation, aggregate base, curb and gutter, hot-mix asphalt binder and surface course, sidewalk, lighting, storm sewers, a block retaining wall, guard rail, traffic control, signage, landscaping, pavement markings, and restoration.

All permitting for new floodwall was completed, as was coordination with IDOT, FHWA, and WCGL.

Total Project Cost \$10.5M

Estimated Construction Cost: \$8.5 Million
